MAN TAKEN HERE MAY BE TOOL OF AUTO THIEVES

Arrested for Second Theft
As He Leaves County
Jail.

"You are my man! Come with me."

Without much ado or ceremony, Barney Bates was arrested here yesterday as he stepped from the jail door by Sheriff Ed May of Frederick who took the prisoner to Tillman county where he is charged with stealing an automobile.

Bates has been in the Ada jail for over a month, he and his wife having been bound over for trial in the district court on a charge of stealing an automobile from a Pontotoc county farmer living near Delbert.

His wife was released on bond last week and made arrangements with parties at Ardmore to fix a bond for her husband. It is understood that she is thought to be implicated in the Tillman county car theft and is charged jointly with her husband.

The authorities are of the opinion that if the Bates are guilty they are but the agents of an organized band of car thieves who have stolen a large number of cars all over the state during the past year.

The authorities are of the opinion that the hub of this crime wheel is located at Ardmore but all of their efforts to trace its activities have failed.

THE LEGISLATURE

(By the Associated Press.)

OKLAHOMA CITY, Feb. 9.—Continuation of the item by item consideration of the general deficiency bill is expected to be continued today by the senate of the Oklahoma legislature. After action on the bill was delayed yesterday by the introduction of other measures the senate plunged into the deficiency legislation and approved twenty-two items with very little debate.

Another effort to expel a member of the upper house occurred yesterday when senator J. E. Fleming, of Poteau, introduced a resolution to oust James E. Grahon, of Davis, on the charge that he holds an office in the state highway department. Both are democrats. No action was taken.

Senator Lillard, democrat of Oklahoma City, introduced a resolution providing for a permanent committee of three to hear all charges of alleged improper acts of state officials.

In the house yesterday the report of the committee investigating the conduct of state officials was the outstanding action. The committee recommended that Lieutenant Governor Trapp be impeached as a result of an alleged improper bond transaction in Seminole and Adair counties. The house yesterday also adopted the committee report that no evidence of improper lobbying in the interest of the Chiropractic bill was found. Following this the house passed a bill which provided for a board of Chiropractic examiners. A motion to consider and another to table were defeated out of order and another vote will be taken on them today.

There is not much satisfaction in that indoor game of trying to keep income ahead of outgo.

CHARGES LEGION MEN ARE 'FIXED' ON COMMITTEES

Unable To Get Results for
Relief for Ex-Soldiers
Is Charged.

(By the Associated Press.)

WASHINGTON, Feb. 9.—Charges that government bureau having to do with soldiers' relief are "packing the committees of the American Legion with bureau employees who are members of the legion," were made before the legion's executive committee here today by Abel Davis, chairman of the hospitalization committee.

"As a result the work of the legion in soldier relief matters is being greatly handicapped," said Mr. Davis, who added that at Cleveland "the bureau liked us to the frazzle in all matters relating to veterans relief and the legion wondered how it was done."

Speaking on the proposed consolidation of the bureau of vocational education, war risk insurance and part of the public health service, Mr. Davis declared:

"Heads of the bureau do not get along together, nor do they co-operate for the best interests of the servicemen. Statements by them, which they have made to us repeatedly have no truth. They spend a greater part of their time getting up records, in other words preparing their alibis before hand."

After hearing Davis, the executive committee recommended to the state divisions of the legion that they refrain from appointment of government bureau employees on their committees.

Davis also charged that the former service men were being kept in private hospitals that were in despicable filthy and in which conditions were terrible.

Harding Ends Vacation, Now Ready for Work

Leaves Houseboat on Mud
Flats, Returns Via
Railroad.

(By the Associated Press.)

DAYTONA, Fla., Feb. 9.—President-elect Harding declared his Florida vacation at an end today and prepared to turn his attention again to the more serious problems yet to be solved before inauguration day. Deciding to delay his work no longer because of the inclemency of the houseboat Victoria, which has been stranded for two days in a mud flat in Mosquito Lagoon, the President-elect packed his belongings this morning and made plans to complete the trip to St. Augustine by rail. He was to reach that city, which will be his home during the remainder of February, tonight.

Valentine greetings, place and tally cards, Webb Book Shop, 129 South Broadway. 2-9-4tc

CHURCHES ARE GUARDED TO PREVENT ROBBERIES

(By the Associated Press.)

NEW YORK, Feb. 9.—All places of worship in Brooklyn "the city of churches," were placed under special police guard at midnight. Members of the clergy have complained to police commissioner Enright, that valuable relics and equipment had been taken from churches and poor boxes in others robbed.

WEATHER FINE FOR OKLAHOMA CROPS

(By the Associated Press.)

OKLAHOMA CITY, Feb. 9.—Will temperatures throughout the state averaging nearly normal for the week ending Tuesday, fairly good progress was made in the preparation of soil for spring crops and in the growth of winter wheat, according to the weekly weather and crop report issued today by the weather bureau here.

Sunshine was deficient during the week, the report stated and there was no precipitation of consequence until the last day of the week when snow and sleet fell in the central and western portion and rain in the eastern.

Fruit buds have started to swell but have not advanced far enough to be endangered to winter killing unless subjected to unusually cold weather, the report says.

Singer Makes Hit With Ada Audience At Lyceum Recital

Those who heard Albert Lind quest sing last night at the Methodist church agree that this sensational young American tenor is one of the foremost artists of the day.

One of the best numbers of the present Lyceum course was furnished by Lindquest, whose voice, a sympathetic lyric tenor, was as well come as its splendid technical delivery.

The young artist indeed has exceptional talent. He displayed a fine resonant voice and excellent diction and sang with artistic finish. His voice is so naturally poised that he can keep on sending out the highest tones apparently without limit. He sings with understanding and displays excellent enunciation.

The appearance here of Mr. Lind quest with assisting artists, Leonor Allen and Robert MacDonald, was one of the big events in musical circles.

Following the concert, Dr. J. Adams Puffer spoke to the audience on problems dealing with child labor in the city of America and suggested lines of improvement which he claimed would be as effective in the city of Ada as they have been proven to be in the larger cities of the United States.

Dr. Puffer was here at the request of the Lions club and the Chamber of Commerce to help in the better cities movement and those who were so fortunate as to be permitted to hear his lecture were benefited very much for attending.

SINN FEINERS ARE ACTIVE IN DUBLIN, CAPTURE STATION

(By the Associated Press.)

DUBLIN, Feb. 9.—One hundred armed Sinn Feiners gained control of the Great Northern railway station in this city last night and held it for more than an hour. Outraged by the derailed by unknown persons, who placed boulders on the track. There were no casualties. During the evening eight armed men entered a jewelry store in Wellington Quay and carried off goods valued at \$3,000.

FIRST GAME WILL BE PLAYED ON MARCH 11

MINNEAPOLIS, Minn., Feb. 8.—The Minneapolis club of the American association will go into action March 11 against Wichita Falls club of the Texas league. George K. Belden president of the Minneapolis club of the American association has announced. The players will have only six days to get into shape before this game is played, as they are scheduled to report at Oklahoma City March 5. Several of the pitchers and a catcher or two are expected to be on the grounds earlier, however.

Tulsa, Oklahoma City and St. Joseph are on the list for later training trip games.

Rabbit-Coyote Drive.
(By the Associated Press.)

PONCA CITY, Okla., Feb. 5.—Members of the Ponca City, Tonkawa, Blackwell and other Kay county posts of the American Legion will leave here early tomorrow morning for the "rabbit-koyle drive" to be conducted all day throughout various sections of the county.

Herman Heinz, "Commander-in-chief" of the forces, has ruled that rifles larger than a .22 calibre would be barred from the hunt, although all available shot-guns may be pressed into service.

The hunt will culminate in "Tree eats" on the farm of which the Heinz brothers are managers.

MIAMI MAN GETS LIFE IN PEN FOR KILLING OFFICER

Another Man Arrested for
Complicity in Shooting
of Two.

(By the Associated Press.)

MIAMI, Feb. 9.—William Smith, known as William Hawkins, charged with the murder of O. B. Vanderpool, a Joplin, Missouri, detective, in connection with the shooting of Vanderpool and Norris A. Chandler, on the morning of June 1 last, was found guilty by a jury in the Ottawa district court here today and was sentenced to serve a life term in the state penitentiary.

The verdict was reached after the jury had been out since midnight Saturday.

C. B. Wood, Pitcher grocer, who was acquitted of the murder of Chandler last June, was arrested late Tuesday on a charge for the murder of Vanderpool.

SCOUT PROGRAM HUGE SUCCESS

Anniversary Celebration at
High School Witnessed
By Large Audience.

Making their first appearance before a public audience, the Ada boy scouts rendered a first class anniversary program last night in the high school auditorium, which no doubt was the best program ever given in this city by boys. The program was original, well delivered and fairly "rock" the audience who cheered long and loudly at very number.

The program started with Judge Del Busby, presiding officer, delivering the opening address, which was followed with an excellent number by the band. The eleventh anniversary salute was then given by the scouts followed by cornet solo by Richard Taylor of the band. Thomas Steed then gave a brief history of the boy scout movement.

The first number on the program to cause a hearty laugh was a quartet selection, "Bim," given by Lindsay Davidson, Morris Spencer, Arthur Eaton and Curtis Allen. The boys were good and were well received by the audience. This number was followed by the band which played "Among the Lillies Waltz" in a very appropriate manner. Burgess Steed came next with a cornet solo which was also very much appreciated by all.

The presentation of the three classes of badges, tenderfoot, second and first class, was one of the most outstanding features of the evening. There were 14 tenderfoot, 34 second class and nine first class badges given at this time. These badges represent many hours of hard work and study, and only a boy who has earned one knows how to fully appreciate their value.

After the band had played another number the merit badges were awarded. There were 36 of the badges given, which included over fifteen different kinds. The boys who got these badges can feel justly proud of them as they not only denote much work, but also carry him higher in the work.

R. W. Simpson, president of the Court of Honor, assisted by the scout executive and scout master presented the badges.

Carl Brown and Cecil Qualls, then entertained the audience with a duet, "Quit dat Tickling Me," which was humorous. Announcements concerning the remaining activities for the week were given. The closing number for the evening was played by the band after which the house was dismissed.

The scouts wish to thank Misses Miller and Taylor for their assistance in making the program a success and all others as well who in any way helped with the work.

WOULD HONOR MEN WHO FRAMED NEW CAR ORDINANCE

TOLEDO, O., Feb. 8.—A place in Toledo's Hall of Fame, the Toledo Museum of Art, is proposed by city Council as an honor that would be bestowed upon the dozen or more men responsible for the framing and successful execution of an ordinance which has settled the street car question here after political stock had been made of the issue for more than a quarter century.

The plan introduced in council is that photographs of the drafters of the service-at-cost ordinance, under which the Toledo street car system now is operating, be framed and placed in the museum along with other noted photographs and paintings now hanging there.

The proposal also would include Mayor Cornell Schreiber, nationally known as the father of the now famous ouster ordinance, which a year ago sent the cars into Michigan for a month.

One councilman has suggested that some of the newspaper men who were obliged to sit through the deliberations should be included in the group.

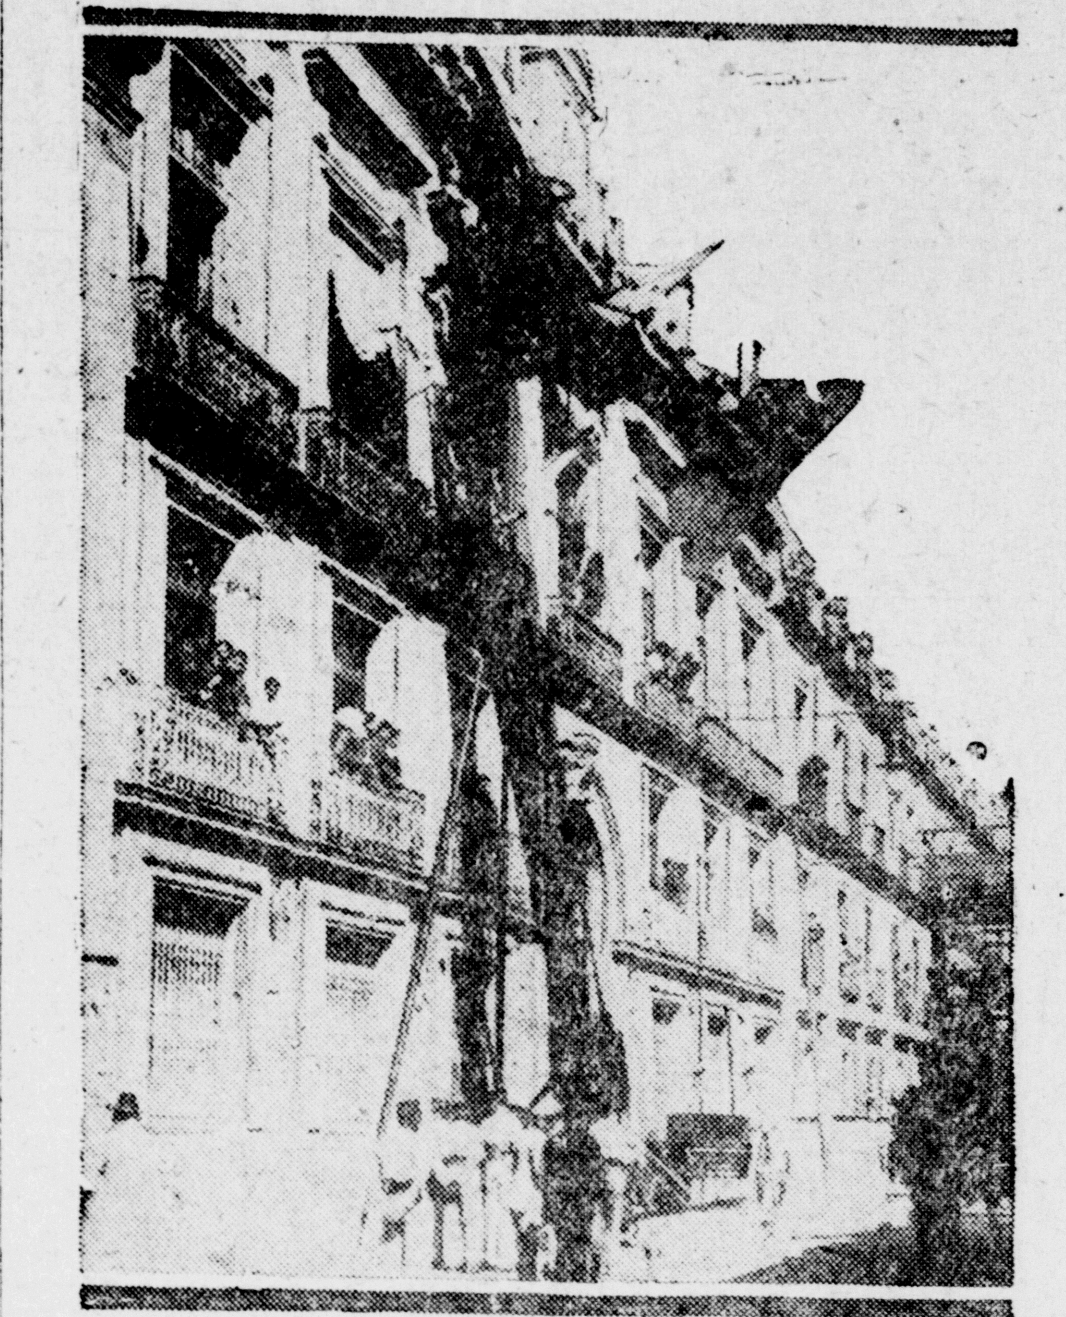

PROPOSES TO BUILD STREET CAR LINE FOR CITY OF ADA

Mayor Kitchens has received a letter from a man who desires to build a street railway for the city of Ada. The letters says that with the co-operation of the mayor, the business men and the Chamber of Commerce of the city he and an associate would be able and willing to construct, from three to five miles of road and equip it with suitable railway cars.

The mayor will place the matter before the other members of the city board at a meeting this afternoon, and turn the letter over to the Chamber of Commerce for investigation and action.

Ludwig C. A. K. Martens, the self-styled "soviet ambassador," on the way to Russia, took all his name with him.

MEXICAN AVIATOR CRASHES INTO PALACE IN CAPITAL, ESCAPES DEATH IN WRECK

Workmen removing wrecked plane from National Palace.

California merchants in Mexico City to establish business relations were given an unannounced thrill when a Mexican aviator became a bit too daring and crashed into the rear of the National Palace with his airplane. The plane was totally wrecked, but the aviator miraculously escaped with minor injuries.

MINERS RETURN AFTER ONE DAY

Had Walked Out in Protest
of the Arrest of a
Union Man.

(By the Associated Press.)

PITTSBURG, Kansas, Feb. 9.—Miners employed at mine number 17 of the Clemons Coal company returned to work this morning after having been out one day in protest against the arrest of Alexander Hawat for contempt of court. Miners employed at Jackson-Walker mine number 5, the other mine made idle yesterday by a protest strike, were not at work. Representatives of the miners said they would have been at work today, but the mine whistle was not blown last night, signaling that there would be work today.

CRUDE OIL TAKES ANOTHER TUMBLE

Price Now Down to \$1.75
Per Barrel in the Mid-
Continent.

(By the Associated Press.)

KANSAS CITY, Mo., Feb. 9.—Crude oil produced in the great Mid-Continent fields of Kansas and Oklahoma today dropped to one-half the price quoted 16 years ago.

Announcement of a twenty-five percent cut by the Prairie Oil and Gas company and the Sinclair Oil and Gas company brought the price down to \$1.75 a barrel, compared with \$3.50 a barrel January 24.

Restricted demands recently for oil and other petroleum products and an over abundant production is the reason given for the precipitous decline in crude oil.

Production in the Mid-Continent has been in line with cuts in other fields of the country.

Operations in the oil fields of the southwest generally have been curtailed in the last month and sharp wage reductions have been made.

No Cut at Dallas.

DALLAS, Tex., Feb. 9.—Neither the Magnolia nor Oriental Oil companies, which have their headquarters here, had posted reduced prices for crude oil this morning. Officially announced, however, they would follow the reduction of twenty-five cents on Mid-Continent, as posted by the Sinclair and Prairie Oil companies.

Cushing News: Money is worth more today than it was six months ago and unless all signs fail it will be worth more six months hence. Instead of a man with a few hundred dollars taking a long chance on a moon beam or a cloud with a silver lining resembling the rainbow of wealth, he should invest in a home or buy government bonds.

COUNTY ATTORNEY FINDS NOTHING AGAINST TRAPP

Seminole Prosecutor Investigates
Embezzlement
Charge on Trapp.

(By the Associated Press.)

OKLAHOMA CITY, Feb. 9.—L. O. Gilstrap, county attorney of Seminole county, in a long distance telephone conversation today with an Oklahoma City newspaper, declared he had found no evidence yet which would warrant criminal charges against Lieutenant Governor Trapp, in connection with the purchase of bonds in that county. Mr. Gilstrap said that in connection with an investigation of the case against C. E. Bean, county treasurer, charged with embezzlement, he had also investigated the entire transaction in which Trapp is charged with fraud in a report submitted yesterday by a committee in the house of representatives of the legislature.

In its report the house committee asked that a committee be appointed to draw up impeachment charges against the Lieutenant Governor and that the county attorney of Seminole county be instructed to conduct an investigation with a view of bringing criminal action against him. Gilstrap said he would continue the investigation.

Following the submission of the report Trapp issued a statement declaring the charges were unfounded. He asserted that he would be able to prove his entire innocence when given a hearing. The evidence indicated he was not called before the committee before the charges against him were submitted to the house.

Legislature Hears Charge.

Information was furnished to the lower house of the legislature today by the investigating committee in connection with its report of yesterday, which recommended the impeachment of Lieutenant Governor Trapp.

A supplemental report was read which declared that the Lieutenant governor on February 7, sent a personal check to Joe Howard, present treasurer of Seminole county, for \$4,317.11, drawn on the First National bank of Guthrie, and also that Trapp delivered to the county treasurer funding bonds valued at \$14,000. The committee further reported that in a bank at Wewoka is a deposit of \$6,976.05 which is to be returned to the county y Trapp.

NO MORE POLITICS, WILSON DECLARES

(By the Associated Press.)

WASHINGTON, Feb. 9.—President Wilson will seek rest and quiet for a time upon his retirement from public life next month, but he will continue to take an active interest in public affairs, his secretary, Josepa P. Tumulty, said today.

Mr. Wilson will seek to avoid projecting himself into politics, in such a way as to embarrass the Harding administration," Mr. Tumulty added, "but he will continue to be available to newspaper men through his secretary and will attend the theaters and take daily automobile rides."

COMPANY TO GIVE EMPLOYEES VOCATIONAL TRAINING

MUSKOGEE, Okla., Feb. 9.—A school of vocational training for employees of the Muskogee Electric Traction company will start here the middle of this week, according to an announcement by R. H. Long, trainmaster. Teachers have already been secured and invitations to attend classes have been sent all employees, he said.

Telegraphy will be one of the chief courses taught. Classes will be arranged for the trainmen, with a view to insuring safety and courtesy to the public. The hours of classes have been so fixed that employees may attend when off duty, Mr. Long said.

Self government has been voted by the street car employees, according to the trainmaster, and certain rules about handling cars have been laid down by a committee. One of the rules is that any employee who failed to flag a crossing must be discharged.

ENGLAND DENIES TREADING PATH LEADING TO WAR

WASHINGTON, Feb. 9.—By direction of his government, Leslie Graigie, British charge here, called today on Secretary Colby at the state department to formally deny public reports that officials of the British foreign office had told American newspaper correspondents in London that Great Britain and America were treading the path leading to war.

No Fake Speeches in Congressional Record

Gentleman From Oklahoma
Wages Fight Against
Self Boosters.

(By the Associated Press.)

WASHINGTON, Feb. 8.—Representative McClinton of Oklahoma continues to keep speeches which were never made in the house out of the congressional record. It used to be the custom with members, given as little as thirty seconds to speak, to put pages into the record, but that was before McClinton began to handle the acts. An epidemic of unspoken speeches always came during consideration of a measure with a popular appeal—the soldier's bonus, for example—but now when McClinton is around.

When the Oklahoma member concluded a brief speech yesterday on the soldiers' hospital bill, Representative Smalle of New York arose:

"I ask unanimous consent," he said, "that the gentleman from Oklahoma be permitted to revise and extend his remarks."

"I object," said McClinton, and the house roared.

KANSAS PLANS REWARD FOR SOLDIER BOYS

(By the Associated Press.)

TOPEKA, Kan., Feb. 9.—A bonus of one dollar a day for each day's service for all Kansas men who participated in the late war is provided in a bill introduced in both houses of the legislature today. The bill calls for a bond issue of twenty-five million dollars.

Fair tonight. Not so cold in west portion. Thursday far and warmer.

W. B. Gay, state livestock inspector, who has been in this city for some time recovering from a broken leg, left this morning for Boswell where he will again take up his work. His wife will follow later.

Geo. B. Hammond

NO DISCHARGE IN THAT WAR: There is no man that hath power over the spirit to retain the spirit; neither hath he power in the day of death: and there is no discharge in that war.—Ecc. 8: 8.

RECOGNIZING MEXICO.

Mr. McAdoo, son-in-law of our president, is the personal guest of President Obregon in Mexico City; inwardly, Mr. McAdoo is not above hinting, it has some official significance. "Has the trip anything to do with the recognition of Obregon?" he was asked at El Paso.

"Well," he said, "I have eyes to see and a tongue to tell what my eyes behold."

"And will you report your findings to President Wilson?" "I am still on speaking terms with the president," he answered, laughing.

By indirect answers he thus conformed to the diplomatic code, and yet made his purpose clear. After being the personal guest of President Obregon, he will make a report on whether or not this country should recognize Mexico, and probably President Wilson will act on the report. The new administration of Mexico may be considered recognized some time between now and March 4.

It may be all right; Obregon's government so far seems a good one, as Mexican governments go. The United States wants to be fair in such cases.

But the present administration of this country should bear in mind that its Mexican policy has been entirely different than the Republican Mexican policy. While Mr. Wilson believes in watchful waiting during periods of Mexican out-rages against American citizens, President Harding believes in action to halt those outrages. A common Mexican trait is to take advantage of any tendency on the part of others to be easy and friendly and lenient. Mexico has got away with it nicely for eight years, but, if she still desires to impose insult and injury on America, she will find little to take advantage of from March 4, on.

As soon as there is a strong and wise government in Mexico, it should be recognized for the good of both republics. But action should not be hasty.

LIFE'S PUPPET-PLAYER.

A French writer once made one of his characters say: "Behind every man's success or failure there is a woman."

Woman is essentially the playwright of existence.

Standing in the wings, she sends her masculine puppets swashbuckling, serenading, conquering, falling across the stage.

She listens to the applause or "boos," and, like the supreme artist that she is, suffers or is made happy with her actors.

Sometimes, it is true, she grows tired of the solitude of the wings and ventures into the glare of the footlights for herself. Then there is turmoil. Her men turn or her—they will share neither the applause nor the rewards—they refuse to crown her with degrees.

They say the stage is theirs.

Unfair, perhaps. But most women know that authorship is a higher art than acting, and are content.

KEEP THE PAYROLLS GOING.

We urge upon all employers, the importance of keeping their employees on the pay roll. If you can't give them steady work, give them as much as you can. It is better to score a loss than to allow disorganization or forces, the bread line, and the suffering that goes with it. Farmers and manufacturers are responding patriotically to the law of supply and demand and labor must do the same thing in due course of time.

We are drifting toward a new level, which, no doubt, will be a little higher than the old normal, but there is no occasion for alarm. Our country is the richest on earth and there are no really bad financial situations to combat, beyond the tax situation, which must be remedied in both states and nation.

Few persons in this country know what bolshevism is, but they know what it is not, and that is condemnation enough.

The wets assert that a lot of folk who never drank before are now taking liquor because it is scarce and expensive.

Being help up and robbed by a bandit is not accepted as an excuse for non-payment of income taxes.

There is nothing in chemistry that tells how to mix sentiment and common-sense to the best advantage.

Few women would marry in the hope of reforming a man if they would think the thing through first.

In spite of the lawlessness, everybody believes in the enforcement of law against others.

Give a book agent enough time and he will talk you into a case of nervous prostration.

"OUT IN THE RAIN AND THE COLD AND THE SNOW—"

Tree Life Imperilled by San Jose Scale Blight

How long would you live were your hands and feet tied and your body entirely covered with hungry mosquitoes, each one afraid the other blood sucker would get more than his share of your blood? You might last a year or two, but every moment of that time would be an endless age of torture and the end would be welcomed with joy and gladness.

While it necessitates a dangerous stretch of the imagination to conjure up such a condition with reference to a man, the picture is not overdrawn when the idea is applied to the fruit trees and forest trees which grow in the city of Ada.

Of course, it is not mosquitoes that are doing the work of torture, but it is another species of insect which works upon the trees in about the same manner as the mosquito works on a man. This pest is known as the San Jose scale, one of the most destructive agencies of fruit and forest trees known to exist.

County Farm Agent J. W. Hill, first called the attention of an Evening News representative to the injurious work of the San Jose scale on the trees growing in the city, and called attention to its destructive powers. Mr. Hill is of the opinion that 90 per cent of the trees in the city have been attacked by the disease, and if no action is taken to eradicate them, within two years all of the trees will be dead.

Desiring to learn something of the nature of this enemy of tree life, the News representative took a limb of an affected tree to the formal laboratory and spent an hour with Dr. E. A. MacMillan, professor of biology. The scribe learned more during that interesting hour than he ever learned in any previous one hour's time of his life.

The San Jose scale is a tiny insect which feeds upon the sap of a growing tree. The young female of the species, on hatching from the eggs, are six-legged, mite-like creatures almost too small to be detected by the human eye. They immediately crawl away from the body of the mother, wander out upon the tender growth of the tree, and there settle, pushing their beaks similar to the beak of the mosquito, through the outer tissue of the tree-bark and feed upon the sap, the life-blood of the tree.

Doesn't Move. As the youngster grows in size, a shell-like skin forms over its back. During its brief existence it outgrows its old shell four or five times but never changes its location on the limb after the second shedding, for as it grows in size it loses the use of its legs. A noted biologist has this to say about the adult female San Jose scale: "She

is a wingless, motionless, degraded, and for all practical purposes a lifeless and eyeless creature. She seems simply an animated drop of protoplasm enclosed in a skin. In the armored scale she is legless and eyeless. The mouth-parts through which she derives nourishment remain functional and become enlarged from molt to molt. Her body becomes swollen with eggs or young and soon as the latter are born she dies."

These tiny scales about the size of the head of a pin, can be found on most of the fruit, shade and other ornamental trees of the city. Many of the trees are literally covered with them to such an extent that the bark on the tree cannot be seen. Each of these tiny, grayish shells is the home of the tree's worst enemy, and unless some action is taken by persons who are interested it will be only a matter of time until the trees will die.

It is said that the San Jose scale is quite readily destroyed by making an application of lime-sulphur at proper strength to the trees during the dormant period—that is, when the leaves are off. Usually this is done in the late spring just

before the buds open. Mr. Hill suggests that one coat of the above solution be applied now, and another later on in the spring season. Commercial grades of lime-sulphur, testing 33 degrees, is diluted with nine parts of water and applied in such a way as to thoroughly wet all parts of the tree from the tips of the uppermost and outermost branches, down to the lowest part of the trunk.

Unless this is done, the rapid multiplication of the scale will enable it to soon encrust every branch and twig of the tree, and even the fruit at harvest time will be found to be blighted with the minute scales located in the center of bright red spots.

Control measures are less easily made during the summer, but as applications made during the dormant period are entirely effective, spraying for the San Jose scale at this time is considered most effective and most economical.

One Game Away From Home.

(By the Associated Press)
ST. LOUIS, Mo., Feb. 9.—The St. Louis University football eleven will play only one of its nine games away from the home field next season. The out-of-town game will be against Creighton university at Omaha, Nov. 5. The other contests follow: Sept. 24, Drury; Oct. 1, Kansas City university; Oct. 8, Missouri; Oct. 15, Rolla; Oct. 22, De Pauw; Oct. 29, Lombard; Nov. 12, Westminster; Nov. 25, Wash-

COST STATE LARGE SUM OF MONEY TO TRY CASES

OKLAHOMA CITY, Feb. 9.—Of a total of 320 cases docketed with the State Corporation Commission in 1920, 208 cases were heard and closed at an expense to the state of \$138,869.52, according to figures compiled in the office of the secretary of the commission. Seventy-four cases were uncompleted January 1, it is shown, while the number of cases withdrawn and settled by stipulation totaled 32. One case was dismissed because of lack of jurisdiction.

The number of orders issued during last year totaled 134,118 being on cases heard during the year. Nineteen of the cases were ordered on the 1919 docket. Journal entries numbered 36 during 1920, 29 on cases heard in 1920 and two on cases heard in 1919. Five entries were made on informal matters.

Fees collected by the commission in its departments totaled \$206,530.09 for the year ending June 30, 1919, and \$253,606.73 for the year ending June 30, 1920, according to the figures. The entire salary and contingent expense of the commission for the two years totaled \$270,068.82.

An interesting fact connected with the fees collected by the commission, is the amount collected for corporation license tax between the years 1912 and 1920. The corporation record department in 1912 collected \$51,108.38 on license taxes, while in 1920 the amount reached \$231,542.67. It is also noted that the four years succeeding 1912 were approximately \$10,000 lower in collections.

The scope of work embraced in the commission's activities includes jurisdiction of all public utilities, general transportation and transmission companies doing interstate business, conservation of oil and

gas, inspection of oil and gasoline used in the state, control of rates of more than 1,000 cotton gins and the collection of more than a quarter of a million dollars in license taxes. The licensing of private corporations also is done by the commission.

During the last two years it is disclosed that inventories and appraisals have been made of gas properties, serving 24 cities and towns and of electric properties serving 21 cities. Natural gas has advanced more in price than any other commodity furnished by a public service company. Consumers paying today, from two to two and a half times the pre-war price, it is shown. Industrial users pay from three to five times the pre-war price.

Strong on Onions.

50,000 Bermuda onions now ready other 50,000 follow in few days. See me, 406 West Tenth. Phone 767.—B. F. Stegall. 2-5-6td

Almost a Shadow, Afraid To Eat

"My son-in-law was so bad from stomach trouble that he was reduced to almost a shadow and was afraid to eat anything, as all food caused bloating of gas which pressed against his heart, worrying him very much. Our druggist persuaded him to try Mayr's Wonderful Remedy and in two months he looked fine, can eat anything and works hard every day." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practical stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Sold by Gwin & Mays and druggists everywhere. (adv)

WHAT IS? SUCCESS

Success is the lodestar of every man's life!

Everybody wants to succeed, yet comparatively few lay the right foundation.

To establish yourself in business requires capital and credit. The only way to have money, when it is needed, is by steadily saving a part of one's income.

Every man or woman in Pontotoc County who needs financial assistance should learn the advantages of a banking connection with us.

Catarrh Disfigures—Clear It Up

Mouth breathing and bad breath caused by catarrh have an injurious effect not only on good health, but good looks as well. Clear up catarrhal indications immediately with the stimulating odor of northern pines contained in Mayr's Pine Needle Balm. This ideal preparation cleanses the nasal passages of the excessive mucus and promotes normal breathing. Mayr's Pine Needle Balm is likewise effective in clearing up quickly colds in the head, nose and throat. Free trial by writing George H. Mayr, 219 W. Austin Ave., Chicago. Sold in two sizes, 30c and 60c tubes by Gwin & Mays Drug Co., and druggists everywhere.

The Quality of Mercy.
Who loveth best—ay, loveth best—
That is the everlasting test
In face of earnest or of jest.

Of late three boys were gathered
where
A dying bird gazed its despair—
Being maimed and left to perish
there.

The oldest boy—with hardened eye
That told of slighted purity—
Stared, laughed, and jeered and
then—passed by.

The next, misled by that contact,
Yet somehow moved—but not to
act—
Muttered: "A shame, and 'hat's a
fact!"

The third—whose innocence un-
stained
Felt pain for other creatures pained
Lovingly quenched what woe re-
mained.

I seemed to hear a silvery voice
From regions where slain things re-
joice;
"God smiles when mercy is man's
choice!" —Alice N. Spicer

Mrs. Brown Returns.
Mrs. Marvin Brown returned to
her home here yesterday after
spending a few days in Oklahoma
City. While in the city she was an
out-of-town guest at the inaugural
tea given in the blue room of the
capital building Monday afternoon
at which time Mrs. J. A. B. Rob-
ertson was hostess.

The tea was given by the busi-
ness and social clubs of the city
to the wives of the legislators and
was a most charming and entertain-
ing affair.

Entertains With Tea.
Mrs. W. T. Anderson is entertain-
ing a number of her friends this
afternoon with a tea at the home
of Mrs. Jack Moore at 114 East
13th street from 3 to 5 o'clock.
She is giving this entertainment
in honor of her niece, Miss Eliza-
beth Binford of Aberdeen, Miss.,
who arrived in the city yesterday
for a visit with her.

Miss Doris Sandusky is spending
the week with her parents in Mor-
ris, Oklahoma.

Miss Alice Mayberry left yester-
day for Holdenville where she will
spend the week visiting her sister.

Carl and Oscar Kreiser will leave
tonight for Ardmore and Wilson,
Okla., where they will spend the
week-end with friends.

Miss Lula Matthews will leave
tomorrow for Henryetta where she
will spend the week-end with her
mother.

Mrs. Chas. A. Bell of Shawnee
and Mrs. A. Calhoun of Purcell are
here visiting their brother, Harry
W. Miller and family, this week.

Mr. and Mrs. J. T. M. Harris
have returned from Madill where
they have been visiting their son
and this family for the past few
days.

Miss Edna Gill will visit home
folks at Morris during the week-
end holidays occasioned by the
teachers association meet at Okla-
homa City Thursday Friday and
Saturday.

Mrs. A. J. Hatcher, mother of
Mrs. Gary Kitchens, left today for
her home in Durant after spending
more than a month here visiting.
She has been here during the re-
cent illness of Mrs. Kitchens.

**Local I. O. O. F. Lodge
Does Good Work at
Annual Encampment**

The local I. O. O. F. Lodge held
its semi-annual encampment last
night in the hall here. There was
a large attendance and more than
20 members were given the three
Encampment degrees, visitors from
several of the neighboring towns
were present.

Good work was done and the
lodge is very much pleased with
the work done last night and it is
hoped that the encampment can
be held oftener in the future than
it has been. There were 14 mem-
bers of the Francis lodge pres-
ent. Lunch was served after the
work had been completed after
which the meeting was dismissed.

**IMMIGRATION BILL IS
DISAPPROVED BY COMMITTEE**

(By the Associated Press)
WASHINGTON, Feb. 9th.—The
house committee immigration bill
which has virtually stopped im-
migration for one year was disap-
proved today by the senate im-
migration committee by a vote of five to four.
The committee agreed to adopt a
substitute measure tomorrow de-
signed to place immigration on a
percentage basis.

**Smathers-Schreiber

YOU'VE SEEN HER OFTEN; KNOW HER NAME

Irene Marcellus.

This young lady has posed for such famous artists as James Mont-
gomery Flagg and Howard Chandler Christy, and drawings and paint-
ings of her have appeared on more than 200 different magazines, it is
said. But her name was unknown to the world until enterprising movie
producers signed her to appear in films, and of course she had to tell
her name. It's Irene Marcellus. You'll be seeing her in the movies soon.

**Noted Lecturer To
Deliver Address at
The Baptist Church**

Tonight at 7:30 it will be the
privilege of the people of Ada to
hear one of the really great lec-
turers on the American platform
free of charge, in the person of
Dr. G. M. Hammond, the silver-
tongued orator of Kentucky. He is
to speak at the First Baptist
church corner of Fifteenth and
Broadway.

Dr. Hammond has been connected
with the National Anti-saloon lea-
gue for many years, and the history
of the magnificent work of that
organization is being the prime
factor in putting the eighteenth
amendment into our constitution.

He will deliver his nationally
famous lecture, "The Challenge of
the Times." This lecture is said
to be one of the most famous of
its kind ever delivered from any
platform in America. The head of
the snake of liquor has been cut
off but the tail is still wiggling,
and Dr. Hammond will tell us how
to stop the tail from wiggling.

Judge Orel Busby, former County
Judge and prominent attorney will
preside and introduce the speaker.
The speaking will begin promptly
at 7:30 and the public is cordi-
ally invited to be present. A special
invitation is extended to all en-
forcement officers of the city and
county to be present.

**L. J. Little Grocery
Store Closing Out
Business in City**

The L. J. Little grocery on West
Twelfth street has announced that
the entire stock and fixtures will
be sold out and the business closed.
The management expects to start
the sale immediately and continue
until the stock is gone.

All who have accounts with the
firm should settle them now and
no charge will be made from now
on.

**FIRE DOES HALF MILLION
DAMAGE AT DETROIT**
DETROIT, Mich., Feb. 9.—Fire of
undetermined origin today de-
stroyed the pier, dance hall and the
coliseum, a river front amusement
resort, entailing a loss estimated at
five hundred thousand dollars.

Court House News

Bales Case Continued

The preliminary hearing of Em-
mett Bales was continued this morn-
ing in Justice H. J. Brown's court
to February 21.

Bales was arrested at Tupelo two
weeks ago following a shooting af-
ray at Lulu in which he is said to
have fired a number of shots, three
of which injured John Hall, a farm-
er living near Lulu.

Two cases have been filed against
Bales for assault with intent to
kill John Hall and Joe Johnson. He
was placed in jail here and was
later released on bond.

The preliminary trial was con-
tinued at the request of the county
attorney who informed the court
that Hall would be unable to attend
the trial before February 21.

The other case against Bales is
set for hearing before Justice Fisher
February 21.

Davis vs. Rushing

The civil case of Blair Davis ver-
sus Joe Rushing and Charlie Rush-
ing was continued to next Friday
in Justice Fisher's court this morn-
ing.

Blair is suing for \$200 damages
claiming that the defendants ran
over him with an automobile two
months ago.

Copeland vs. Ford

The civil case wherein Fred Cope-
land is plaintiff and Albert Ford,
Cr., and Albert Ford, Jr., are de-
fendants in an action for possession
of property is in progress at the

court house this afternoon before
Justice Fisher.

Many of the witnesses in this
case are full blood Indians and it
is necessary to use an interpreter
in taking their testimony.

W. A. Fletcher, a farmer living
east of Ada was arrested and placed
in jail yesterday charged with dis-
posing of mortgaged property. A
bank at Stonewall is the complain-
ant. The date of the preliminary
has not been set.

News From the Hospital

H. F. Grady, a farmer living three
miles northwest of Ada underwent
a successful operation at the hos-
pital for hernia this morning.

Mrs. R. T. Isom and daughter,
Ruth, were in the city today shop-
ping and looking after other busi-
ness matters.

Mrs. W. Shelton of Ardmore ar-
rived in the city yesterday to spend
a few days transacting business
matters and visiting friends.

UNUSUAL VALUES

STILL HOLD IN WINTER WEIGHT UNDERWEAR

FOR WOMEN AND CHILDREN

We have brought down our winter stock in all departments to a minimum with the Blue Bird Message sale, but in underwear there are still a few garments left that will be closed out at the unusually low prices that prevailed on held-over or fall stock. So now we continue this week and until closed out the following remarkable prices in these women's and children's garments, including some "Athena" underwear, at

49c, 75c, 89c, \$1.10 AND \$1.65

A FEW LADIES', MISSES' AND CHILDREN'S COATS LEFT

These are of fall or last spring styles and only a few remain in each rack at the re-
markably low prices of

\$1.75, \$2.95, \$4.15, \$5.90 and \$8.95

There may be a dress, or a stray skirt, or some other garments in these same price
assortments. While they last, this is an extraordinary opportunity.

BUT WE'LL GET THE TAG.

Among the many other troubles which the new year has already brought forth, we find it necessary to apply to the state highwayman's department for a license tag for our erstwhile joy wagon. If we have our usual luck, about the first of June we should get arrested for running a car without a license tag. After a carefully worded apology to the officer who arrests us, completely exonerating the highwaymen in charge of the department for not yet being able in six months to perform the highly technical operation of mailing us the tag, we hope to be allowed to pursue the even tenor of our way until some time in October.

About that time of the year, when the frosts have clothed the meadows in brown draperies, and the polkberries are beginning to ripen under the gentle rays of the waning southern sun, we expect to go down to the garage with a beautifully illustrated story for the garageman, intended to assure him that he will ultimately collect the bill we owe him, and inadvertently boost him into letting us have two gallons more gasoline, we will then find that as the picking is rather poor around our virtuous little metropolis the aforesaid department has sent out some amateur highwaymen and our car is again in the hands of the powers that be, then we will give notice to the clans to assemble and march upon that garage, and we prophesy that by the aid and influence of all the county officers, our banker, and by exhibiting again our duly signed and sealed application, we will be allowed to resume possession of our boat with a warning or admonition not to let it happen again.

Now about the first of December the tag should actually arrive and our joy will know no bounds. It will license us to use highways anywhere in Oklahoma, and if we can locate as much as a mile of one that is not so rough that a fifteen-mile gait would shake the radiator off a Detroit special, we shall be both happy and surprised.

Paying money into any state department don't usually make us feel religious or like quoting scripture, but on this occasion it reminds us somewhat of a statement we once heard about the wind: "They don't know whence it cometh and we don't know whither it goeth." It is, however, our opinion if every man in Oklahoma who believes it is applied to the roads were to die tonight, there would be no more grief in the state tomorrow than there was when we learned that the kaiser had ducked for Holland.

HE HAD THE ELIXIR OF LIFE.

Physicians tell us that they are now on the eve of a great discovery—the rejuvenation of mankind. Thyroid gland injections of various animals—the goat and monkey are preferred just at present—are hailed as the medium by which old age is to be routed and the decrepit filled with the ambitions and vivacity of youth. Experiments, to a limited degree, have borne out scientific contentions.

The lure of youth is the expression of one of two great causes of man's discontent—his inability to find untold wealth, and his lack of success in escaping old age and death. Not so long ago, Sir William Ramsay revived the ancient search for the philosopher's stone in his attempt to transmute silver into gold by the use of radium. Gerber, the Greek philosopher; and Christian Rosenkreutz, the German, antedated Ponce de Leon in his search for the mystic spring in the reaches of the Floridian wilderness.

Perhaps the most successful exponent of the elixir of life was a powdered, bearded gentleman who called himself the Comte de St. Germain, who made his appearance in Paris during the reign of Louis XV. This charlatan claimed not only the elixir of life, but an ability to draw diamonds from the earth and pearls from the sea through incantations.

St. Germain became the lion of the royal circle. He established himself with the king by removing a flaw from a court diamond, without cutting it or diminishing its weight, thereby doubling its value. He presented valuable jewels to court favorites, and wore

diamonds surpassing those of the crown jewels. Old women purchased his elixir in copious quantities. Under royal favor St. Germain defied the few who dared scoff at his ability.

This interesting charatan was apparently about 50 years of age. He claimed to have been born seven hundred years before, and spoke familiarly of people and events as one who had known them previously. He was accompanied by a fantastic vagabond, who bore witness to his weird tales. This valet modestly admitted but five hundred years as the span of his existence.

St. Germain added to the mystery by his mode of life. None knew where he resided. In the midst of his popularity he disappeared, never to return. By chance, none of the court's patients died during his residence in Paris, and when he vanished the supply of elixir ceased. Without it, of course, his dupes succumbed to the advance of years.

The count himself died in 1784 in Germany, where for years he had lived quietly as the guest of a little principality.

GENERAL PUT ON MOVIE ESCAPE.

The humors of war share places with the casualty lists and military movements in the news.

When General Bogavsky was executing the retreat of Wrangel's troops in the Tarnak region he found his train surrounded by the rapidly advancing Bolsheviks. As in motion pictures, he jumped from his car window into a motor car and there followed a flight toward the river with the Reds in pursuit.

The bridge collapsed as the general's car rolled on to it and the automobile tumbled into the river. General Bogavsky leaped from the machine as it fell and landed in a swamp, where he hid in the rank weeds until morning. Meantime the Reds in their turn had retreated.

Northeast of Alexandrosk, where there had been fighting, two newspaper men, Charles Rivet of the Paris Temps and Guy Beringer of Reuters, Ltd., the British press association, captured six hundred Reds. They saw a broken regiment of tired, hungry men near a village, they walked up to the Bolsheviks, proposed the surrender so as to get food as Wrangel's prisoners, and marched back into the south Russian lines at the head of the bread line.

What Others Say

Miami News: A man stole comforts from the Comfort hotel in Chicago and he was arrested on a blanket charge.

Indian Journal: This is an age of specialization. Still, just because the dentist pulls your teeth don't jump to the conclusion that he would hesitate to pull your leg.

Pawhuska State Capitol: It may be putting it a little strong to say that a profector will never get to Heaven, but a lot of folks are thinking some hard things.

Shawnee News: Now that all the pictures of Ardmore notables mixed up with Clara Smith have been printed, Sam Blair, the newspaper sleuth who hunted her down in the haunts of the Mexican spirituels, is coming in for tardy recognition.

McAlester News-Capital: It seems that when the good folks of Okmulgee put on their real jewels for dress parade they have to hire special guards to keep the Hi Jackers off.

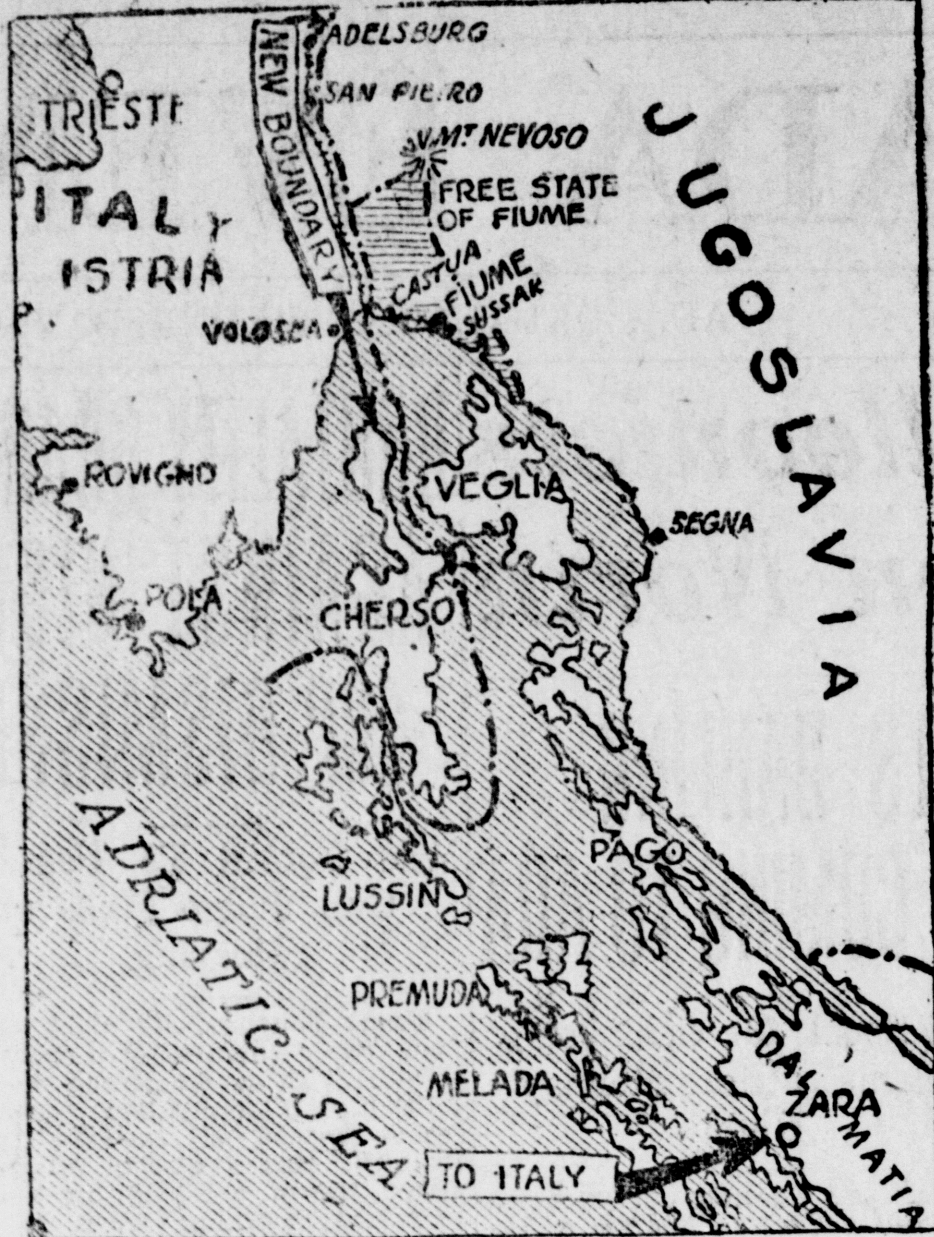

Oklahoman: A new brand of paper money will be put in circulation this year. Most of us are entirely satisfied with existing issues, complaints being confined to quantity only.

Vinita Journal: The big newspapers complain about the price of newsprint and yet most of them have contracts with the mills and only pay about half the price the small papers, forced to buy in the open market, have to dig up.

Wilburton News-Democrat: A Virginia editor threatened to publish the name of a certain young man who was seen hugging and kissing a girl in the park unless his subscription to the paper was paid up in a week. Fifty-nine young men called and paid up the next day, while two even paid a year in advance.

Capper's Weekly: Uncle Sam begins the new year more than two billion dollars in debt on his house rent and grocery bill, according to Secretary Houston. With all the taxes paid to him for 1919 deducted from his expense account he will be \$2,100,000,000 in the hole for the fiscal year ending June 30, 1921, which is probably the worst example of riotous living ever set by any nation. It is quite apparent what sort of a new year resolve Uncle Sam should make. Aunt Samantha should work one of her famous "Waste Not, Want Not" cross-stitch mottoes for him.

SETTLING THE ADRIATIC DISPUTE

Arrows and dotted lines indicate main points in settlement.

The settlement of the Adriatic problem by Italy and Yugoslavia, agreed to at Rapallo recently, makes the following dispositions of territory, according to a state department announcement:

"With the exception of Zara and Cherso, which go to Italy, Yugoslavia obtains Dalmatia, including Sebenico. The new frontier assigns Istria, Adelsburg, and San Pietro to Italy and runs through Monte Nevoso to the Adriatic, which it touches between Volosca and Castua—the latter being given to Fiume. The Istrian line of frontier is to be contiguous with the independent state of Fiume. The railway from Fiume to San Pietro is assigned to Italy. The country south of Monte Nevoso is divided between Yugoslavia and Fiume, on a basis whereby the higher altitudes go to Yugoslavia and the lower altitudes to Fiume. Yugoslavia also will get Longatico and the adjacent valley."

Work Progressing Rapidly on Frisco Freight Depot

Work on the new Frisco freight depot is progressing rapidly, and the foreman in charge is of the opinion that the station force will be able to enter the warehouse portion of the building by February 15. Thirty men are working on the building, and a great deal of headway has been made during the past week of very favorable weather. Brick masons have run the side walls about seven feet above the concrete foundation.

Practically all of the material to be used in the construction of the building and the platform is on hand. A portion of this material was bought in Ada, but the most of it was shipped here from the yards of the contracting company, the Kelly Atkinson company, of Chicago.

When completed the building will be 30 feet by 138 feet, with 250 feet of covered platform adjoining. The building and the platform together, will extend from Townsend avenue nearly to Broadway. E. A. Wall, contractor for the Kelly-Atkinson Construction company, who prepared the bid which secured to his company the job of constructing the building, has been in Chicago since Christmas, but is expected to return within the week to keep in touch with the work.

C. A. Farrell of Chicago, general foreman for the contracting company, has charge of the work as general overseer. Nels Kjeldsen of Chicago, carpenter foreman, has charge of the wood work. All of the brick masons, carpenters, and other laborers are local men.

C. A. Zorn has been awarded the plumbing contract, B. B. Howard the tinners' contract, and the Harris Paint company the painting contract.

It is the opinion of the general foreman that if favorable weather continues and no bad luck is encountered the agent's force may move into the office part of the new building not later than March 1. This seventy-five-thousand-dollar building will be one of the most up-to-date freight depots on the Frisco when it is completed.

TOBACCO GROWERS TO MARKET OWN PRODUCT

(By the Associated Press.)

LOUISVILLE, Ky., Jan. 5.—Exciting scenes were enacted at several blue grass towns today when tobacco farmers, disappointed with low bids for their leaf tobacco, stopped sales, held mass meetings and put plans on foot to market the crop themselves.

FARMERS MAKE HEADWAY FOR SPRING CROPS

(By the Associated Press.)

OKLAHOMA CITY, Jan. 5.—With weather favorable for farm operations of all kinds fair progress was made throughout the state during the week ending yesterday, in preparing the soil for spring crops, according to the weekly report issued today by John W. Slaughter, meteorologist at the United States weather bureau here. The weather was generally fair, and the temperature moderate through the week, the report added.

The condition of winter grains remained above the average, according to the summary. Some cotton was picked, but an unusually large amount is still in the field, all of a low grade.

Trade with the merchants who advertise—and save money by doing so.

We Believe the Doctor.
Dr. I. L. Cummings called to the attention of a News reporter this morning a little chronology that are in no way to be disputed. We are inclined, in fact, to believe that it is true. The doctor stated that in the year 1640 the Indians sold Manhattan Island to the whites for a keg of whisky. And that is the good year of our Lord 1921 the citizens of Manhattan want to trade back.

"When Oklahoma boys quit wearing silk shirts, Japan suspended its silk industry," the Bartlesville Enterprise says.

BEING A SUNBEAM

"WE HEAR and read a great deal about optimism," said the stranger, "and we go around telling our friends not to worry. The advice is good enough, but we don't pause to reflect that optimism is a mental attitude that can be reached only by study and training. What shall we study? I have here, madam, a little book entitled, 'How to Be a Sunbeam,' which answers the question fully and completely. It was written by—"

"I don't care who it was written by, or whether it is indorsed by all the statesmen and prelates in the country," exclaimed Mrs. Curfew. "I don't want to be a sunbeam, experience having taught me that I can get along better and have less trouble and tribulation, when I look as much like a meatax as possible."

"Last evening before I went to bed I was reading a book called 'Sunshine Susan.' It was about a woman who just made up her mind to be happy no matter what happened. Then her husband was brought home with a broken leg, and the two children had a number of measles simultaneously, and the house burned down, and the bank in which she had deposited her savings closed its doors, and in spite of everything she went around singing and dancing."

"If I had thought it over I might have realized that it was too good to be true. No human woman could be gay and happy in the midst of so many calamities. But I was in a sentimental mood, and when I turned out the light and went to bed I thought that I ought to be ashamed of myself for not being like Sunshine Susan, and I made up my mind I would turn over a new leaf first thing in the morning."

"So I came downstairs smiling, and I was singing all the time I was getting breakfast, and when Mr. Curfew came down he said it warmed up his whole being to see me in such a cheerful frame of mind. It reminded him of him of the time when I was sweet seventeen, and as pretty as a red wagon. Then he gradually drifted into a story to the effect that he had a great opportunity to make the finest horse trade of his career. All he needed was \$7 in cash to close the transaction, and he would make at least \$15 by it."

"He knew I had \$7 put away in the clock to buy myself some clothes I need the worst way. I had saved that money, a nickel and a dime at a time, and was looking forward to the time when I would have enough to go shopping and buy myself an outfit good enough for the queen of Sheba."

"Mr. Curfew had been trying to borrow my savings for a long time, offering to give me his note as security, and before I read that Sunshine Susan book I always refused him, and nearly snapped his head off doing it. But that morning I was anxious to make everybody happy, so I handed him the money, and he went and made his horse trade and brought home an old crowfoot that has been sick ever since, and he spends all his time out at the barn, feeding it pills and powders, and I can't get him to do any of the chores around the place."

"The same morning Mrs. Turpentine heard me singing in the back yard, and she thought it would be a good time to borrow my patent electric washing machine, and came over for that purpose. She had asked for it a dozen times before, but I always told her to go to. Being full of sunshine on that occasion, however, I told her she could have it and welcome, and I've never been able to use it since. The man who sold it to me says it will cost \$6 for repairs, so you see what Sunshine Susan did to me."

"No, mister, I don't want any recipe for being a sunbeam, and you can take your book along to Mrs. Turpentine, in the yellow house across the street. She's the champion middle weight pessimist of this neighborhood."

Explained.

"Do you see the man yonder? Well, to my certain knowledge he is leading a double life."

"You don't say so?"

"Yes; he is a professional contortionist."

After American Stylemakers.

French creators of feminine gowns and hats have appealed for a law to prohibit the indiscriminate photographing of their models at the race tracks. They claim that American and other clothing designers are stealing fashion points from the pictures.

Close Call.

"It was a near thing, but I made it."

"The operation, you mean?"

"Yes. In another twenty-four hours the patient would have recovered without it and walked out on me."

Cabbage Plants.

200,000 oz. band, best varieties, growing fast; be ready by 15th of February or 1st of March. See us before ordering. 406 West Tenth, Phone 767.—B. F. Stegall.

ST. VALENTINE'S DAY IS NEXT EXCUSE FOR GAY PARTIES: SOME SUGGESTIONS

Table decorated and set for the Valentine party feast and a crepe paper frock to wear to the party.

By Mrs. Morton

Next to Christmas to the youthful mind comes Valentine day, with its fun of making and giving valentines and its many fancy dress parties. The possibilities for the decorations on this day are unusually good and many pretty ideas are to be had for small sums, from ten cents up, which are the prices of the paper sets and novelties most of the stores carry.

Nowadays the table decorations are about the simplest part of any luncheon. The illustration shows a table set with a paper cloth decorated with many hearts and a garland border. Paper plates, paper napkins, paper baskets with little cupid's attendant, paper streamers from a large paper cupid holding a huge paper heart centerpiece, and love-letter place cards delivered by a dove form a pretty and attractive decorations. A fortune may be attached to each favor or some little prophetic saying as to the heart affairs of each guest. The little heart-shaped baskets may hold small after-dinner candies or salted nuts.

Of course, all the dishes served at the luncheon or supper party should have some sort of heart decoration or be in some way a reminder of the occasion.

The dress which is illustrated may be readily made over from an old muslin slip or frock. It is all fashioned of paper with hearts and garlands for decorations. The hat is also made of paper.

How the Dress is Made
Paste the decorated crepe paper which forms the lower part of the skirt, to the fold of plain pink crepe paper which forms the upper part. Paste while the paper is spread flat. Then gather the skirt at the waist line with silken thread.

Four narrow ruffles of pink paper trim the hips and sleeves. Ruffles are best made on the sewing machine.

The waist is made of plain pink crepe paper slightly full and cut with rounding neck.

A shirred band of crepe paper, two inches wide, also made on the machine, trims the waist, extending around the belt line, crossing in front and ending at the shoulders. A heart and ribbon motif pasted on where the bands cross the waist in front repeats the skirt motif.

The foundation of the hat is simply a wire ring shaped as illustrated. A double piece of pink crepe paper is drawn around this wire to form the brim, and is then pasted together at the back. A gathered crown of the decorated design is sewed in place and the hat is finished.

ished with a narrow ruffle around the edge, and streamers.

Refreshment Suggestions

Here are descriptions of a number of attractive dishes from which you may select the menu best adapted to your needs.

Tomato soup or bouillon with heart-shaped croutons. Creamed oysters or chicken in heart-shaped pattie cakes. Large red apples hollowed out and fill with a mixture of apples, nuts, celery and salad dressing.

Cupid's Salad: Cut out heart-shaped pieces of tomato jelly that was hardened in a large, flat dish and place on crisp lettuce leaves. Prepare a cupful of stone olives, sliced and chopped cucumber pickles mix with mayonnaise and place a little heap upon each red heart.

Love Sandwiches: On a thin slice of buttered bread lay a lettuce leaf, spread with mayonnaise dressing and sprinkled lightly with grated cheese and finely minced English walnuts. Lay another slice of buttered bread over this mixture and trim into heart shapes. Or hard boiled eggs cut in thin slices may be used for the filling.

Gingerbread may be baked in thin layers and cut in heart shapes, then frosted deftly so that only the upper half of a Cupid's dart is seen, giving the impression that the other half is buried within. Gelatin also can be prepared and served in heart shape molds and colored with strawberry or grape juice to make it quite realistic.

AMERICAN.

It is not often that a handsome leading man—one of those curly-haired matinee idols—will give up his hirsute adornment for a t's sake but in Manurice Tournour's "The Last of the Mohicans," which comes to the American Theatre, starting Thursday you will have a chance to see many actors who did that very thing.

Four leading players and fifteen actors actually shaved their heads in order to play Indian roles in this Tournour special. The craniums are devoid of all hirsute save for the familiar little top-knot, or scalp-lock, as the redmen called the small tuft allowed to grow to give an enemy a hand-grip for scalp purposes—if the enemy is the better man.

Albert Roscoe, who plays Uncas, last of the Mohicans, was the first to lose his beautiful curls at the studio barber shop. When the razor slid over his bald knob, he slumped into the chair moaning, "I see where they make me play convict parts for six months after this picture is finished."

Joseph Singleton, Jack McDonald, Wallace Beery and others in turn eighth Osage Indian. Looks like the original character in Cooper's famous book, and Beery, as Magua the terrible, is a living image of Roscoe, as Uncas, who is really an that horrible person of booklore.

The screen result is excellent. suffered this ordeal. A group of luckier men taunted them from the cause Tournour paid them a big front door, but they only smiled, be-bonus for the operation.

McSwain.

Vaudeville and Pictures "Harriet and the Piper," Anita Stewart's latest First National picture, which will be screened at the McSwain theatre today is from Kathleen Norris' story of the same name. The story, which has a Greenwich setting, ran serially in the Pictorial Review, and has since been published in book form. Supporting Miss Stewart is an all-star cast, including Ward Crane, Charles Richman, Irving Cummings, Byron Munson, Myrtle Stedman, Margaret Landis, Barbara La Marr Deely

and Loyola O'Connor. Bertram Bracken directed the production. Those who have already seen "Harriet and the Piper," both at the coast and in New York, are unanimous in declaring it the best film vehicle in which Miss Stewart has yet appeared, not excepting "The Old Kentucky," which was one of the most successful of last season's productions.

Also a complete change in the vaudeville. Three new cast, a new aerial acrobatic act, a singing and musical number of singers and dancers.

PLANS FOR MOTOR SHOW AT MUSKOGEE COMPLETED

(By the Associated Press)

MUSKOGEE Feb. 8.—The Muskogee Motor Show will be held in the auditorium at the fair grounds March 31 to April 2, according to a decision reached by automobile and accessory dealers at a luncheon here recently. The show will embrace passenger cars, trucks, tractors, and accessories of all kinds.

Although it will be Muskogee's first motor show, elaborate plans have been perfected to make it a success, those in charge of the show declared. The Muskogee newspapers

UNUSUAL CONDITION

Texas Lady Suffered With Pulling and Aching Pains in Her Back, Which Cardui Relieved.

Houston, Texas.—Mrs. C. D. Cook, of 1912 Whitty Street, this city, recently said: "About four months after my marriage, I . . . began suffering much pain, and knew that my condition was unusual, but couldn't just decide what was wrong. I had to go to bed. . . . All across my back and hips were pains, pulling and aching until I could hardly sit up. I stayed in bed a few days. My husband had heard of Cardui . . . so I told him he might get it. After I had taken Cardui a few days, I was up. I took five bottles and haven't been in bed since for this trouble, for if I have the least symptoms of this trouble I get Cardui and take it in time."

"I have a number of friends who have used Cardui, and they recommend it very highly." The experience of this Texas lady is similar to that related by thousands of other women. Cardui is purely vegetable, and mild and gentle in its action. Cardui may be the very medicine you need if suffering with womanly troubles. Take Cardui. NC-134

were enlisted to take an active part in the display, and a broad advertising campaign was worked out. Muskogee dealers will attend the Tulsa show on "Muskogee Day" Feb. 10, when the Muskogee boosters will launch their first campaign.

WILL SELECT DELEGATES TO ATTEND CONVENTION

(By the Associated Press)

OKLAHOMA CITY, Jan. 29.—

Members of the Oklahoma branch of the National Women's party were in session here today for the purpose of electing delegates to represent the state at the national convention to be held in Washington February 15 to 19. The meeting was being held in the offices of Ida F. Hasley, state chairman.

"Equality in all branches of activity—legislative, professional and industrial—will be the aim of the party during 1921," Miss Hasley declared, commenting upon plans of the organization for the ensuing year. There is some speculation as to whether the organization will continue as a unit, Miss Hasley added, because it was primarily organized to support the national equal suffrage amendment.

According to plans of the Oklahoma branch, means for the education of school girls along vocational lines will be one of the chief topics discussed at the meeting today. An effort will be made to get young girls to plan seriously for vocations and professions.

At the national convention in February, Miss Hasley said, a memorial ceremony to pioneer suffrage workers will open the meeting. Statutes of Susan B. Anthony, Lucretia Mott and Elizabeth Cady

Notice to income taxpayers. I will be at the court house Feb. 9, 10 and 11 to assist the taxpayers in making up their income tax report for the year 1920.—R. C. Crain, Dep. Rev. Collector. 2-8-21d*

Things are looking better. Some landlords advertise that they have no objection to one child.

It does not seem to occur to the nations of Europe that they can stop war by ceasing to fight.

County Fair. (By the Associated Press.) McALESTER, Feb. 8.—The Pittsburg county fair will be held here September 21 to 25, according to an announcement following a meeting of the executive board of the fair association. Consideration of premium lists and the election of officers also was made at the meeting.

CONVINCING PROOF

That Lydia E. Pinkham's Vegetable Compound Has Extraordinary Curative Power in Cases of Woman's Ailments

Columbus, O.—"I suffered very much pain during my monthly periods and felt weak and all run down. I tried many remedies and the doctor said I would have to have an operation. Then before my baby was born I had terrible pains in my sides. I took Lydia E. Pinkham's Vegetable Compound and it helped me wonderfully. I have had two children since I began taking your medicine and did all of my own work including washing while carrying them. I can also recommend Lydia E. Pinkham's Vegetable Compound and it helped me wonderfully. I wish this letter as a testimonial if you wish."

—Mrs. THOMAS L. Christy, 704 West Mount St., Columbus, Ohio.

Such a condition as Mrs. Christy was in points directly to a deranged condition of a woman's system, and by following her example taking Lydia E. Pinkham's Vegetable Compound, women may be relieved from such ailments and be restored to normal health and strength just as she was.

If there is anything about your condition you do not understand write Lydia E. Pinkham Medicine Co., Lynn, Mass., in regard to your health.

MILES OF LAKE SHORE GOING TO WASTE IN U.S.

(By the Associated Press)
CHICAGO.—Reclamation of the foreshore on Lake Michigan in the Chicago district would provide nearly 100 square miles of land for wharves, warehouses and port facilities, according to a report submitted to city officials by Col. W. V. Judson, chief War Department engineer.

The report calls attention to the fact that ocean liners may dock at Chicago's wharves within the next fifteen years if the Great Lakes-St. Lawrence River channel project is carried out. Such an outlet to the Atlantic would connect Chicago with the sea routes of the world. The coal mines of southern Illinois and the cotton belt of the south will feel the touch of Chicago commercial endeavor through an eight-foot barge channel to the Mississippi.

"Never before did it seem as fair to point out its prophecy a region where there must inevitably and soon be established the world's greatest port facilities," the report says.

The foreshore of Lake Michigan, from Chicago shores very gently lakeward," the report continues, "so that the seven-fathom contour is four miles off shore. This means that in our submerged lands, all publicly owned, the Chicago district possesses nearly a hundred square miles any part of which it is within the power of man to raise into land. This is an asset of almost incalculable value."

Reviewing the sections of Chicago's lake front, Col. Judson points out that Lakes Wolf and George lie close to Lake Michigan on the Illinois-Indiana line with six square miles of marshy land adjacent. This section "offers the greatest opportunity in all this region for the creation of wharf facilities of a character, magnitude and location suited to the demands of the future," the report says.

General plans for these harbor facilities, Col. Judson said, have been approved by the war department, which is charged with studying harbor conditions under the Esch-Cummings law.

What Every American Should Know About His Country and Its Opportunities

Fred D. Underwood, President of the Erie Railroad, Began His Career as a Brakeman.

THE railroads furnish many examples of the opportunities under the Constitution which American industries offer to the average man to climb to responsible executive positions. Fred D. Underwood began as a railroad clerk and brakeman, from which point he worked his way up to the Presidency of the Erie. Daniel Willard, President of the Baltimore & Ohio was a fireman on the same train with Underwood. Every man holding an executive position with the Erie came up from the ranks. P. H. Ashton entered employ of a railroad at 18 as an axman in the engineer corps and now is President of the Chicago & North Western Railway; Samuel Rea, President of the Pennsylvania, was a member of an engineer corps at the age of 16.

William G. Biesler, President of the Central Railroad of New Jersey, began his railroad career at 16 as a trainmaster's clerk. He was the son of a cobbler. Every member of the Board of Directors of this railroad worked his way up from a subordinate position. L. F. Loree, President of the Delaware & Hudson, was an assistant in engine corps at 19; W. H. Truesdale, a clerk at 15, is now President of the Lackawanna; Alfred H. Smith, who began as a messenger boy in 1879 and later became foreman of a bridge building crew, is now President of the New York Central; G. W. Stevens who began as a telegrapher, is now President of the Chesapeake & Ohio; L. E. Johnson, fireman at 20, now Chairman of the Board of the Norfolk & Western; Julius Kruttschnitt, in the engineering department at 24, now Chairman of the Board of the Southern Pacific. The late James J. Hill the great railroad builder of the North West began as a clerk in a country store. The late Marvin Huggitt, for many years dean of railroad men and Chairman of the Board of the Chicago & North Western was a telegraph operator at the age of 19. Almost without exception, it can be said that the men who direct this, the greatest of American industries, have gained their eminence, step by step, through arduous and loyal service in their various positions of responsibility.

Ku-Klux-Klan Has Eyes On This State

Oklahoma Is In Line for a Branch of Organization If Extended.

ATLANTA, Ga.—Extension of the Knights of the Ku Klux Klan to include Oklahoma is being considered by Col. William J. Simmons, Imperial Wizard, it was announced today.

Colonel Simmons stated that numerous requests had come from citizens of Oklahoma urging him to establish the Klan in that state and an imperial officer already has been sent there to look over the situation and the work of organizing the Klan will be started at an early date if the report of the imperial officer recommends it.

The Knights of the Ku Klux Klan was organized in Atlanta five years ago by Colonel Simmons "as a patriotic fraternal organization designed as a living, lasting memorial to the valiant men who composed the original Klan of the Reconstruction period and who by their efforts saved the south and the nation by thwarting the plan of Thad Stevens and his political henchmen to establish a negro empire upon the ruins of southern homes and institutions."

The Knights of the Ku Klux Klan, according to Colonel Simmons, stand for four great fundamental principles as follows: 1—A greater devotion and absolutely to the original and fundamental principles and ideals of the founders of America; 2—Supremacy of the white race in the social, political and governmental affairs of the nation; 3—The everlasting separation of church and state in America; 4—The protection of woman's honor and the sanctity of the home.

"While the Knights of the Ku Klux Klan stands unreservedly and unqualifiedly for these principles," says Colonel Simmons, "it stands firmly for the preservation of law and order and does not seek under any circumstances to further its principles by the use of force, or violence, intimidation or threats, but by constantly preaching and teaching the doctrine of pure Americanism and love of home and country."

COTTON ASSOCIATION MAKES RAPID PROGRESS

OKLAHOMA CITY, Feb. 9.—(Special)—Success seems to be assured for the Oklahoma Cotton Growers' association, according to a statement issued yesterday by O. L. Stealey, secretary. The association plans to market a large percentage of the 1921 crop co-operatively, direct to the spinners.

"We now have signed up more than a third of the number of bales, based on 1913 production, required on May 1 to complete the association as a selling agency," said Mr. Stealey.

"Sentiment all over the state is undoubtedly in favor of the association. The Farmers' Union has endorsed it. The State Grange has endorsed it. The U. S. Department of Agriculture and the Oklahoma State Market Commission have placed the stamp of their approval upon it. Various local farmers', businessmen's and bankers' associations are actively aiding in its organization."

The financial side of our organization work is materially aided by the friendly attitude of the bankers. The Oklahoma Bankers' association, after a thorough investigation of our plan of organization and contract, have officially endorsed both. Many individual bankers are particularly helpful. One in-

stance, typical of many others, is the statement by Mr. Sam L. Morley, of the American National Bank, McAlester, at a recent organization meeting. Mr. Morley said:

"If there is a patron of my bank who does not have the \$10 to join the association I will loan it to that patron without interest until the next fall. Yes, and if there is a patron of any other bank in this county who has not the money to join and he can't get it from his own bank, if he will come to me I will loan him the \$10 on the same terms."

"While the outlook is very promising, there is a lot of work ahead for all those interested in the success of the association, and to all those I would say 'See that you do your part.'"

YOU'RE STUNG SAYS JUDGE OVER HORNET NEST CASE

(By the Associated Press)
RALEIGH, N. C., Feb. 9.—Elmer Gill and James Darling, of this city have just been tried in City Court for engaging in a fight that followed an argument over the ownership of a hornet's nest.

Evidence brought out at the hearing showed beyond a reasonable doubt that the nest was the prop-

erty of Darling, which said he had walked miles through the woods to find for the purpose of making a tea which he said he used for a cough.

"You are discharged," said Judge Harris to Darling.

Gill, apparently displeased with the decision, asked:

"How about me, Judge?"

"Oh, you're stung," replied the judge. "You must cough up ten and costs."

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work. People afflicted with bad breath find quick relief through taking them.

Dr. Edwards' Olive Tablets are a vegetable compound mixed with olive oil. They act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood, and purifying the entire system. They do that which calomel does, without any of the bad after effects. Take one or two every night for a week and note the pleasing effect.

MAMMOTH SERVICE FLAG IS ALMOST COMPLETED

(By the Associated Press)
OKLAHOMA CITY, Feb. 8.—A service flag containing 1,264 stars, 15 of them gold, representing Oklahoma's teacher contribution to the world war, has been practically finished and ready for final disposition to the Oklahoma Educational Association by R. H. Wilson, state superintendent of public instruction. The flag measures about 8 by 12 feet.

Mr. Wilson stipulated in presenting the unfinished flag that it should repose in the memorial hall of the American Legion of Oklahoma, should the legion at a later time have such a hall, or be presented to the State Historical Society. Not until recently has the entire list of teachers in the state who served in the war been completed and the stars sewed to the flag.

The stars also represent those instructors who entered the Red Cross and Y. M. C. A. work from the state. The Red Cross allotment forms the center of the flag where, upon a white space, the insignia has been placed for each member joining the Red Cross forces. In this same space is also included the stars for those entering "Y" work.

Of the 15 gold stars found on the flag, 14 of them are for male teachers who gave their life during the war, and 1 for a Red Cross nurse. Every star is representative of an instructor who was serving as a teacher in the Oklahoma schools at the time of his or her enlistment, Mr. Wilson said.

A reference log attached to the flag sets out the name and the location of the star on the flag representing each person. The number, column and row where this star may be found is included. There is also contained a list by counties of all teachers who entered the service from that respective county, their number, column and row.

LATEST STYLE IN DOGS; TITLE GIVEN NEW POLICE DOGS

(By the Associated Press)
NEW YORK, Feb. 9.—"Latest style in dogs," is the title given the German police dogs by Dean V. Horace Hoskins of the New York University Veterinary college, who says fashions in dogs fluctuate as they do in dress.

The Boston terrier and Pekinese are also fashionable, Dean Hoskins said.

"The Boston terrier has enjoyed a longer period of popularity than any other dog, having been in vogue for thirty years, and is still fairly popular," he said.

The pug dog and the old black and tan, or rat terrier, which enjoyed an immense popularity in the 80's and 90's are almost extinct, and the dean said he knew of no one who still breeds them. The chows, which were favorites in 1900 are well liked.

Dean Hoskins lamented the passing of the collie, and regretted the current vogue for the police dog, saying he was not so gentle a companion as the collie.

German police dogs were brought back to America in great numbers aboard army transports by officers and men of the army of occupation in Germany.

It is usually easy to put off until tomorrow what you failed to do yesterday.

GOOD SHOWING MADE BY RECRUITING OFFICE

(By the Associated Press)
OKLAHOMA CITY, Feb. 9.—Oklahoma City gave 575 enlistments to the regular army during the month of January, according to a statement issued here by the recruiting office. 475 of which were for 3-year periods. The infantry and field artillery claimed the majority of the enlistments.

Instructions have been received here for the enlisting of men for a cadet course in aviation. The course will continue 10 months, after which those successfully completing the course will be commissioned in the reserve corps. Civilian are eligible to these schools.

The East Main Garage can do any kind of auto repair work, and do it efficiently. They give prompt service—certain satisfaction. 9-2-41

American Theatre THURSDAY AND FRIDAY

MAURICE TOURNEUR Presents

THE LAST OF THE MOHICANS

An American drama eternal. By James Fenimore Cooper. A historically truthful version of this World-Known Story.

Read what these critics have to say about it:

It cannot be disputed that "The Last of the Mohicans" is Mr. Tourneur's greatest achievement—a masterpiece of its kind. It's the greatest Indian picture ever shown. He has kept faith with Cooper's memory.—Lawrence Reid, Motion Picture News.

The public owes Maurice Tourneur a vote of thanks for putting "The Last of the Mohicans" on the screen. It will restore the popularity of the story.—Edward Weitzel, Motion Picture World.

The Fort William Henry massacre will stand comparison with anything ever accomplished for the screen. For a parallel of this scene one must turn to the battle on the walls of Babylon in Mr. Griffith's masterpiece "Intolerance"—S. M. Weller, New York Review.

Tourneur has done it again. "The Last of the Mohicans" has resulted in thrills galore. There are so many of them that it is going to be difficult to make your crowd believe that all of them appear in one production. A real masterpiece.—Wids Daily. (Note: Wids is conceded to be the best motion picture critic in the U. S.)

In such a remarkable manner has Mr. Tourneur conjoined history and art that the result is one of the most valuable features ever brought to the screen.—Ira Francis Duppe, Exhibitors Herald.

Tourneur sets his associates a mighty pace. "The Last of the Mohicans" is a truly great work—a master work—in picture making.—Charles Hastings, Exhibitors Trade Review.
